Check your selection(s) below. Students may take one or both 3-week sessions as the course material is not repeated. English sessions consist of reading, writing, and presentation, in an interactive, thought-provoking environment. Mathematics sessions focus on number sense, computations, application word problems, and demonstrations. One-week intersessions provide hands-on enrichment in science, art, music, and creative design activities. Differential Reading for ages 4 – 7 is an immersion program focusing on reading fluidity and comprehension.
